## End of Cycle 2017 Data Resources

## DR2_036_05 Acceptances by age

## Statistic: Number of Acceptances

Variables: Age (Not banded), Cycle Year
Coverage: Applied before June deadline

## Definitions

Age (Not banded)
Derived from date of birth declared by the applicant, age is aligned with the cut off points for school/college cohorts within the different administrations of the UK. For England and Wales ages are defined on the 31 August, for Northern Ireland on the 1 July and for Scotland on the 28 February the following year. Defining ages in this way matches the assignment of children to school cohorts. For applicants outside of the UK the cohort cut off for England and Wales has been used. Values of 17 and under and displayed as ' 17 and under', values of 65 and over are displayed as '65 and over' and values between 18 and 64 are displayed unbanded. Please note: if the derived age is outside of the range $11-100$ then it is set to 18 by default.

Cycle Year
The cycle in which the application was processed.

Number of Acceptances
Acceptance is defined as an applicant who has been placed for entry into higher education.
